Options	

#### Standard colours

### Information

Are you looking for an optimal protection against the sun, wind or insight? The B38 and B38 Prestige are folding arm awnings who provide a maximum amount of shading. The B38 is an exclusive awning that can resist wind forces up to 6 Beaufort. The variable valance offers a perfect protection against the low sun and offers extra privacy. When not in use, the valance disappears completely into the lead rail. The awning and variable valance can be controlled with one single remote control. Optionally, this remote can also control built-in LED lighting and electric heater.

- Perfect for protection against the low sun or for houses with south-west orientation
- Folding arm awning up to max. 6 m width
- Projection up to 3,5 m
- With roll-up motorised valance up to 1,3 m
- Strong awning with 4 cables
