<b>Options</b>	

#### Standard colour frame

#### Standard colours awnings

### Information

The Brustor Twinstor creates shadow wherever you prefer: with two ground anchors or freestanding galvanised steel flowerboxes, this autonomous awning is anchored in the garden or on the terrace without attachment to an existing wall or porch. The fabric and the mechanical parts are protected in an optimal way thanks to the two fully enclosed cassette casings. The arms are electrically controlled with a remote control.

LED lighting and a patio heater operated by a remote control are convenient when you want to enjoy your Twinstor on cooler evenings.

- Self-supporting structure composed of two B25 awnings, also available with B25 Elite
- The eye-catcher of every terrace
- Autonomous awning
- Electrically controlled
- Fully enclosed cassette
- Shadow surface up to 42 m<sup>2</sup>
